Sticks and stones may break my bones but words is lamaphobe.......FASCIST will never hurt me! This is something many people in Britain today have forgotten or had wiped from their pride in peoples voices now they crack with fear, where once British feet stamped toe across politicaly correct lawns. Where British men Clive Jones tel; 07481863922 now laughed at and derided, all thanks to the liberal elite and their marxist lackevs. Dumbed down, imasculated fed a diet of circus and games they have been nullified by

SEVENTY YEARS OF LIES

History is written, not so much by the victors, but by those who control the means anarchy and the order of of communication. And so for civilised society. These the last seventy years liberals, 'patriots' need to look at their socialists and communists have spewed out their hatred confirms to the stereotype it of British Fascism and all it has stood for in the trade's union-funded newsletters and To imagine that any websites, the school textbooks, the university journals, the academic works, mostly result in EDL v UAF v the popular novels, the songs, Police is at the very least the newspapers, the magazines, the television documentaries, and even, the edl is not going to effect Hollywood movies.

This has made our task difficult but not impossible; the truth will always break through the barrage of lies as politics and politicians and long as we remain steadfast under fire. The first truth on the path to enlightenment is that liberalism leads to persecution. Another great issue! I see we face many of the same **problems**; here in America, the political situation continues to go downhill, as it has for at least the last 70 years. Trump has managed to One who truly believes in temporarily stop the wave of Rapefugees from entering America, and is being lambasted by the organized media (all leftist) for this "travel ban." I'll be re-issuing *The New* Fascism: An Idea Whose Time Has Come for a second edition, primarily with some updates for more recent times, and you can be sure the NBU will be getting a favorable mention. As both our countries slide closer to disaster, the solution remains the same: Fascism.

One who abides by our creed and sticks to our dogma will succeed. Persistence leads to success, which leads to progression, and progression leads to the ultimate end, succession. Simply saying you name, but not in substance. you must act. This century, the 'century of the Fascist', will see the end to our corruption, and the end to the with our posters. Raise government that currently been embedded in our soil, in our land, since the early twentieth century, it has become a part of us, the British people. The seeds have been sown! It is down to us, the revolutionaries, to accommodate the germination of our organism, the germination of British Fascism.

The fight has only just begun!

We are the foot soldiers of Fascism, we are the followers of Sir Oswald Mosley, and united we stand. We are driven. We are efficient and we are dedicated. A new age has been forged, a prosperous future is ahead. The twenty first century benefits a movement like ours immensely, we now have technology, in particular that of the Internet, at our disposal. Although propaganda may be streamed off the Internet, and spread effectively, we must do more, we must do more to increase public awareness of the 'New British Union of Fascists'.

Ask yourself this question, comrades. Are you doing your bit, are you doing enough to promote the NBU? Or are you claiming to be a fascist in

They were believers in the man and his mission. His philosophy of leadership by the elite and not the mob is more important today than ever before. As Mosley said: "The Spirit Lives The Rest Will Follow".

Sir Oswald Mosley came upon the political scene like a meteor. A hero of World War One, he was the youngest MP elected to the British Parliament at age 22. When the Labour Government refused to tackle the problem of unemployment he resigned from office. On 1st Oct, 1932 he founded the British Union of Fascists.

Fascism was the new creed which constituted a Third Position, rejecting both the greed of capitalism and the class warfare of socialism.

Oswald Mosley created the ideology of the "thought-deed brought up in the aftermath political soldier". Many people of the Great War of 1914were thoroughly indoctrinated 1918. Bellamy was not one to grumble in the comfort of an armchair and leave the solution to others. He joined the Blackshirts almost at the start and went out onto British streets to fight for peace and prosperity through Mosley's policies of a high wage economy, economic autarky, a Corporate State and no more wars unless Britain was attacked.

This brought him into daily conflict with communists, democratic socialists and capitalist supporters. But he remained true to what he believed in and in 1940 paid for it with imprisonment without charge or trial under the infamous Defence Regulation 18B.

Those who supported Mosley throughout the 1930s came from a wide social spectrum. Intellectuals, the military, farmers, the middle classes and the industrial workers ... all had one thing in common. It was a belief in a revolutionary change that would free Britain from international exploitation and bring social justice for all. Mosley's programme for national renewal through positive state management became the creed of fascist action.

LEADERS MESSAGE

It is distressing to realise how widespread and great is the loss of that power of national unity which once attracted the admiration of all who came to Britain and made this nation determined to carry on against any odds.

In the past great storms of bloodshed and misery, poverty and disaster, have loomed blackly over our heads. Cannons have sons to heroic deaths. The Of the East London stalwarts, lightening of intrigue has played and darted with vicious intent towards the Motherland. But the men and women of Britain have stood conscious of their unity, facing without the strength of that whatever came with calm deliberation because they knew that where they stood, stood Britain.

> Ready to die should the grim necessity arise, they faced what must have seemed insurmountable obstacles. Common misery was faced with common resolve. They united to preserve national integrity from disruption.

> In unity lies strength, as has been proven a million times. But today? We have little or no national life, weary and disheartened from enforced multiculturism our Britain is split and broken unconscious of the national strength that could be ours.

On all sides our enemies press grimly on, determined to bring the once glourious Britain down into ruin. Fighting the hardest battle we ever faced we are disunited, unity and mutal co-operation which made us the leading nation of the world.

We have an inept government, without strength of purpose or ability, run by men who sold their national birthright upon the planks of party platforms. These men entrusted by the nation to rule and givejustice have led us to ruin by jumping like puppets whenever their masters have pulled strings, have tricked and deluded the entire country, so that all the dignity and fair-play it once represented lie trampled in the dust of their dirty, scheming individual careers.

The Argentine Fascist Party Bandera Vecinal ("Neighbourhood Banner" flag is red with white central disc and insignia: a partial swastika, black upright crossed seven) is standing for the first time for the Senate elections in October. Leader is Alejandro Biondini (Italian surname) who claims to be a "Peronist", a term with many interpretations since Perón was an affiliate of Mussolini's Fascist organization and also visited Berlin on several occasions during the war. A large section of membership was seen enthusiastically delivering the Fascist salute at a Press conference. The big controversy is that

Bandera Vecinal, like every
Party standing for the

THE NATIONAL PHALANX PARTY

- 1. Our strength is in action, and being quick and powerful in our actions. We will attack our rivals with fierceness and harshness in every word, use our will to break their will, and use our faith to breath their faith.
- 2. We will be faithful to our ideology, and our faith must be stronger than that of a templar knight's. Our faith must be like our shield.
- 3. Our symbol most highly of who we are. The Omega is like a bow, pulled very far back, ready to launch the three arrows. The Omega means that this is perhaps the last time in history where we could fix the world. The arrows mean two things, one being the three branches of our government, and them being crossed means "together we are stronger", the meaning behind the Fascist "fasces".
- 4. Our name's symbolic "Phalanx" reinforces

- 5. our "together we are stronger" idea. In Ancient Greece, armies marched close together in the Phalanx tactic, with their shields making a wall, the shields connected to protect everyone in the division. We should work to metaphorically do the same, and with our actions help our fellow man, and be a wall of hope and action.
- 6. In the party stage, we must have long and hard leadership, with two noble and just persons in charge. Two Eagles in front of a large flock of Hawks. We should seek parties similar to our cause, and work with them to establish peace and prosperity among the movements. What is a Phalanx with no men? They are but weapons and shields with no wielder, waiting to be used. Men are more dangerous than any idle weapon.
- 7. Desire and cherish knowledge. Be informed. Do not fall into even a bit of deceit.
- 8. Keep yourself in good physical health, and good mental health.

Communism: the Red Plaque.

We have seen it's crimes in areas all across the world, and this terror is a terror that tops any other on the world and in the history of the world. Communism is a Zionist's idea, and has always been. Karl Marx, a German Jew, made this terrifying idea, and a man named Vladimir Lenin made it a reality in the great empire of Russia, turning it into the U.S.S.R. after the first world war. A Phalanxist must look upon the Germans, millions of Poles, men of the Communist ranks with terror and with hate: a Phalanxist must stamp them out at any costs necessary, domestically and abroad. Here is the evidence that makes the Communist plaque so terrifying, what makes it a demon we must quickly eradicate.

Great War, the was a civil war Bolsheviks, the newest against the Russian Imperial White Army and the Soviet Red Army, the battle between Stalin, and their propaganda these two was ruthless; the Whites and Red both merciless. The Reds had killed telling them to rape and Czar Nicholas II, and had angered the Russian loyalists, women, as well as anyone in Jewish idea to kill another and the war looked to be a

war of survival for the Whites. the occupied Axis lands. Even Leon Trotsky, Vladimir Lenin, prior to this, the Bolsheviks and Joseph Stalin took charge tried to invade Poland in the of Russia after they crushed 20's, and started an uprising the White Army, and together, in Germany around the same they killed millions Russian time. Both were put down,

innocents, millions of Ukrainians, millions of millions of Czechs and Slovaks, millions of Latvians, Estonians, and Lithuanians, millions of Bulgarians, Romanians, and Hungarians; their reign of terror has lead to more death than any other prostitution with it, and that government on Earth. Jewry and Communism are very close allies, in this civil war that was fought, it was In Russia, after the end of the $_{\mbox{\scriptsize Russia}}$ against Judaism and creation of the Jews. In the second World War, under minister, they dropped pamphlets for the Red Army, murder German children and Jewish Capitalism, using one

harshly. However, in America and other Allied nations, the degeneration and bolshevikination of their people began. Porn was created, adultery was not frowned upon, homosexuality was let loose and rampant, list goes on and on. In America and Europe today, we see the effects of capitalist Jewry, in 1920s-1990s, you saw the result of Jewish communism. Both are bad, but Communism is more ruthless, more disconnecting of the people; more destructive in nature. Even now Communism is alive, through the degenerates of

Jewish idea, only for that cycle to loop again. Through Antifa, they are a demonic force of evil and terror still, with violence being their only backing. Even China, Vietnam, Cuba, North Korea, and Socialist politicians must be eradicated.

How to deal with a Communist: You destroy them. It is simple, before they destroy us, we must destroy them. Their ideology must be so bastardized that they forget it even existed. We must burn their books, destroy their statues, obliterate the history of their existence. We must, too, steal from them their spirit; the Red Army Choir, for instance, has music we could steal and use against the Communists with reworked lyrics that fit our agenda. The Waffen SS marched on these bastards once, and this we'll stomp on them harder. Every nation harmed by this sickening ideology must rise up in arms, and steal back your freedom. The Soviet cause must die by any means necessary, for a Phalanx in both movement and in country, will always declare war on the sickle and hammer!
